Narrative x Persona

Narrative x Persona - Beard Growth Kit

Man Matters beard category masterdoc | Five core narratives for acquisition content

Narrative Rule

Only these five major narratives should be used as the main narrative buckets in briefs, content plans, creator assignments, and reporting: Peer Proof / Confidence, Before-After, Myth Busting, Product First, and Problem Solution. Alcohol-free, doctor-led, science-backed, Minoxidil, safety, and timeline messages are supporting proof points inside these narratives, not separate major narratives.
